About DLI

As part of their commitment to delivering education to more students in more parts of the world, Deakin University (AU) and Lancaster University (UK) have joined with Navitas to develop an innovative partnership to manage and operate a new joint higher education campus in Indonesia. Bringing together a combined reputation for world-leading education and research and extensive experience in international education, the Deakin University Lancaster University Indonesia (DLI) Campus will deliver the highest quality, affordable educational opportunities to Indonesian and international students while also supporting the education, research, and human capital priorities of the Indonesian government. It will also advance Indonesia's reputation as an appealing international education destination.

Overview

As part of their commitment to delivering education to more students in more parts of the world, Deakin University (AU) and Lancaster University (UK) have joined with Navitas to develop an innovative partnership to manage and operate a new joint higher education campus in Indonesia. Bringing together a combined reputation for world-leading education and research and extensive experience in international education, the Deakin University Lancaster University Indonesia (DLI) Campus will deliver the highest quality, affordable educational opportunities to Indonesian and international students while also supporting the education, research, and human capital priorities of the Indonesian government. It will also advance Indonesia's reputation as an appealing international education destination.

The Lecturer, Computing at the Deakin Lancaster Indonesia campus will play a vital role in delivering high-quality computing courses. This position is primarily focused on teaching, aiming to enhance the academic success and career readiness of both Indonesian and international students. A strong commitment to teaching excellence and the implementation of innovative approaches to engage learners effectively is essential. While the primary focus of this role is on delivering high-quality teaching, there will also be opportunities to engage in research that informs teaching practice and contributes to the discipline. The Lecturer will collaborate closely with colleagues in both Indonesia and overseas to provide high-quality education, ensuring that the curriculum remains relevant to industry needs and equips students with the essential skills required for success in the global workforce.

Position Description

Lecturer, Computer Science and Cyber Security
