### Other contacts

**Internal:**
Project Co-Is: David Tyfield and Andy Jarvis in LEC, and Bronislaw Szerszynski in Sociology, as well as a second researcher hired for the project. Other researchers and students working on climate, technology and politics issues at LU, technical and academic staff, central administration.

**External:**
An advisory group for the project. Academics working in other projects within the same funded research programme. Extensive contacts with stakeholders (researchers, policy makers, industry, NGOs) of greenhouse gas removal technologies.

### Major Duties:

- Taking on key responsibilities in organizing and running the research project. This will include further developing methodology and methods, with data collection to include reviewing of literature, interviews and focus groups.
- Be responsible for setting up advisory panel
- Analysis of qualitative data resulting from these methods.
- Presentation of results at conferences and project meetings.
- Writing papers.
- Manage the close liaison with our collaborators in other projects in the research programme and with a diversity of key external stakeholders
- Developing further research bids that build on the foundation provided by the project
