Job Title: Research Associate/Senior Research Associate in End-of-Life
Present Grade: 6/7

Department/College: Lancaster Medical School

Directly responsible to: Dr Amy Gadoud

Supervisory responsibility for: N/A

Other contacts
Internal:
Staff of Lancaster Medical School, staff in the Faculty of Health and Medicine, Lancaster University staff with similar/complementary research or teaching interests and Professional Services staff.

External:
NHS colleagues and other employers, Project partners, professional bodies, Research Governance Teams, research funding bodies and councils, academic and research networks.

Major Duties: Teaching, Research and Academic Leadership and Engagement

To obtain, analyse and interpret routinely obtained data from the NHS in south Cumbria and Lancashire, write publications, and present at conferences. Including:

Major duties for both Research Associate and Senior Research Associate roles:

- Liaise with NHS trusts and statutory authorities to obtain data and appropriate research governance approvals
- Curate and analyse the large dataset obtained using SQL or similar
- To publish in leading journals, in collaboration with the line manager and the project partners
- To provide regular progress reports to all project partners
- To attend meetings, workshops and conferences, presenting research results and networking
- Consider future funding applications to major funders
- To undertake any other duties as may be requested by Dr Gadoud, as appropriate to the grade of the post

Major Duties for Senior Research Associate Role:

- Leading the collaboration, planning, development and publication of our work
- Participating in writing new research proposals that build on the expertise developed within this project
