### Major Duties: Teaching, Research and Academic Leadership and Engagement

To obtain, analyse and interpret data from the NHS, PHE, ONS and other sources in Fleetwood, write publications, and present at public events and conferences. Including:

- To develop analysis plans, protocols, ethical (and similar panel) submissions, standard operating procedures, governance and regulatory submissions as required for ongoing and future studies.
- To analyse data following pre-specified analysis plan/s and/or approved protocols.
- To report research findings in the form of conference abstracts or talks at local and national events/conferences.
- To lead and/or support the drafting of scientific manuscripts, reports to funders and other materials for other audiences based on the results from research studies in collaboration with the line manager and the project partners.
- To liaise with NHS trusts and statutory authorities to obtain data and appropriate research governance approvals.
- To provide regular progress reports to all project partners
- To attend meetings and workshops presenting research results and networking
- To pro-actively contribute to future funding applications to major funders
- To undertake any other duties as may be requested by Dr Sedda, as appropriate to the grade of the post
