**Other contacts**

**Internal:**
Dr Paula Holland (Senior Lecturer in Health Research) and Professor Jennie Popay (Distinguished Professor of Sociology & Public Health); other NIHR SPHR Summer Intern in Public Health Research; staff in DHR, Faculty and the University.

**External:**
Peers from other HE institutions working in similar roles; Liverpool members of the Liverpool and Lancaster Collaboration for Public Health Research and other members of the NIHR School for Public Health Research.

**Major duties (depending upon the project focus):**

**Local Resilience Forums**
- Search for and identify key documents and materials of relevance
- Analyse documents and make connections between sources
- Produce visual representation of emerging governance structures
- Contribute to literature searchers and synthesise findings

**Social Prescribing**
- Undertake database searches to combine relevant literature, making judgments on the quality and relevance of literature in line with project aims/criteria
- Synthesise and describe findings from research papers and additional sources
- Make efforts to analyse and make theoretical connections with research papers

**Generic**
- Be willing to learn about key debates and issues in health policy, the social determinants of health and the broader field of public health
- Be able to present, organise and communicate research findings in a professional manner and in accordance with the requirements of public health discipline
- Collaborate effectively with broader supervisory team
- Undertake training and personal development, as appropriate
- Attend team and other meetings as appropriate
- Any other task appropriate to the role and grade as directed by Head of Division or nominated representative.
