**Other contacts**

**Internal:**
- Other researchers on EPSRC Fellowship; Members of the EDS Lab

**External:**
- Project Partners

**Major Duties:**

1. Conduct basic and applied research for studying and conducting statistical analysis activities of ICT footprint emissions from large-scale ICT systems.

2. To collaborate with industrial and research project partners and to assist in the coordination of development activities within the project.

3. Participation in all project meetings, preparation and presentation of talks, posters and reports to disseminate the results of these studies.

4. Participation in national and international conferences and workshops to present the results of the project to a wider audience and to learn about current advances in the field.

5. Take a leading role in the scoping, planning and writing of conference and journal papers for publication of project findings.

6. Take a leading role in identifying funding opportunities and developing project proposals for future funding building on the expertise developed in this project.

7. Provide support and mentorship to PhD students within the Principal Investigator’s research group.

8. Any other duties appropriate to the grade, as directed by the Principal Investigator or his representative.
